Mouse Style Switch

With adhesive backing, no drilling required. Can be installed in any position. You can freely turn on the lights with a simple press of the button.

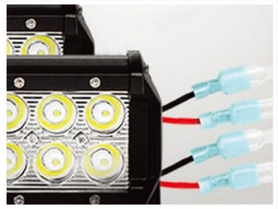

Automotive Relay

The relay is high quality made with well conductive pins. It effectively protects the circuit and the lighting system.

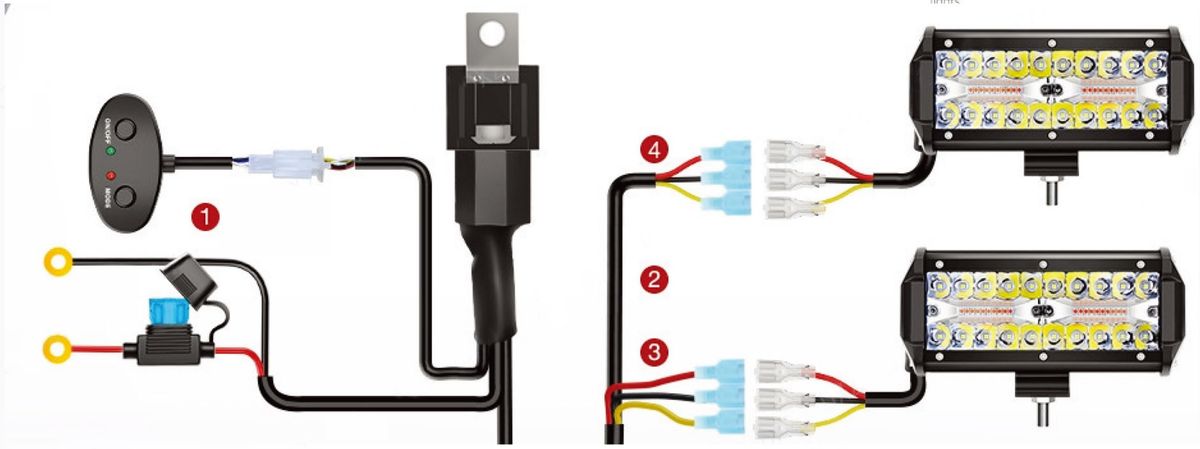

Inline Fuse with Fuse Holder

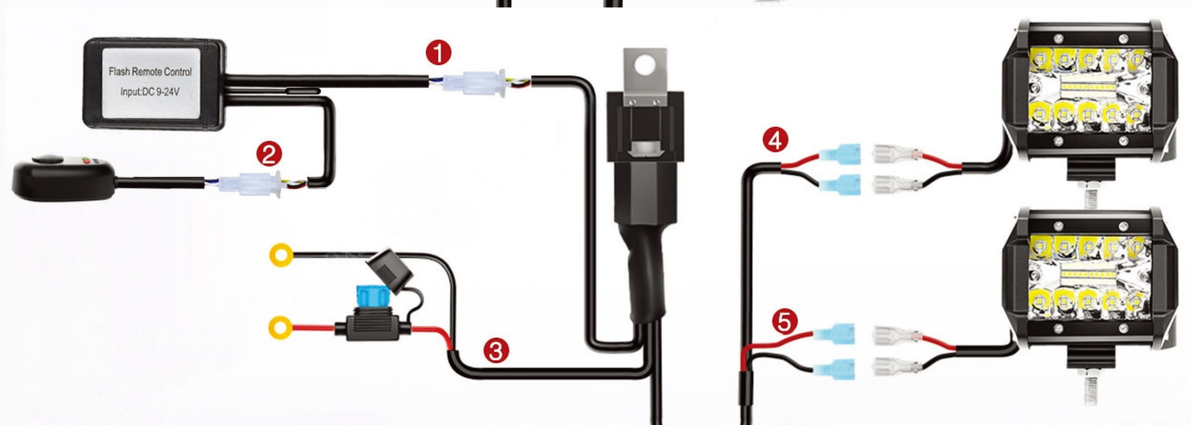

Inline Fuse against over-current and short circuit. Specially designed cap, efficiently prevent water and dust from entering.

Two Leads

Two leads design, the wiring harness can hook up two LED lights within 180W at the same time. or you can use piggyback connector to add more lights.
